## Annual Fall Sale of Oriental Rugs

With Its Unquestioned Savings of a Fifth to a Third

SHIRVANS—light shades and designs, about 31/0x6 ft.

MOUSSOULS—Small all-over and medallion patterns, 1/2x4 ft.

BELOOCHISTANS—deep, rich, dark red colorings, 3x5 ft.

Rugs for Hall Strips mellow patterns in the handsome Irans, Caradans and Kurdistans. Sizes 3x10 feet to 4x15

—New connections established with the largest and foremost dealers in Oriental Rugs in America make this Annual Sale of Oriental Rugs an event of rare importance to lovers of Ori-ental Rugs.

Oriental Rugs an event of rare importance to lovers of Oriental Rugs.

— Because the unusual assemblage of rugs holds for them a rich store of delight, furnishing inspiration to the finer setting of their homes.

— Because the prices are a fifth to a third less than we could, or would, customarily ask.

— The endinger we spoke of seek a larger volume of business. To induce us to buy more rugs than we usually self, they make us decisive price concessions.

— We also seek a larger volume of business. The price concessions we received we pass on to you. Also we forego part of our own profits. In a sale wherein we dispose of hundreds of rugs, the aggregate profits justify a modest profit on individual rugs otherwise impossible. Though these rugs are art treasures, we treat them as regular merchandise—pricing them an exceedingly thir margin of profit.

—The addition of these many new rugs to our stock forces a price revision downward on the many other rugs in stock. Their new price tickets read from a fifth to a third less than formerly, the greater reductions being on odd numbers.

—Most of the rugs in the sale group themselves under one of these headings and sizes:

IRAN—Genuine timed mellowed antiques, 4x7 to 5x8 ft.
KIRMANSHAH—of surpassing beauty and excellence, 4x5 ft.
SAROUKS—softer and deeper tinted than Kirmanshahs. 4x7 ft.

Carpet Size Rugs
Ideaf rugs for living rooms. Their short, close pile insures lasting service. Monkebads, Mesheds, Mahals, Serapis, Anatolins. Sizes 9x12 feet to 10x15 feet.

PRICES—Persian rugs are unlike other merchandise. Prices mean nothing until you see the rugs. Therefore, we have purposely omitted prices. Savings, however, generally run about like this: \$15 from \$20; \$24 from \$30; \$20 from \$30 in several odd rugs;\$40 from \$50; \$67,50 from \$85; \$110 and \$115 from \$150.

## Special New Tailored Suits, Two Popular Prices, \$15 & \$25

Instances of Remarkable But Regular Values

For their hard service tailored suits, many women like
to pay about \$15, and \$25 is a good price to pay
for a suit that may be worn on the street afternoons or
for informal occasions.

Because of these popular preferences, Rich's has SPE-GIALIZED in suits at approximately these-prices, and we believe our patrons will find here the broadest stocks, the most attractive styles and the best values in this vicinity.

There are close upon a score of models, and the number is added to daily. They are distinctive and smart in style, cut upon fine lines, strictly mant-tailored, lined with good wearing silks and satins, finished with care, calculated in very way to give the best service possible.

opportunities for constructive service through such a body are almost unlimited. The towns and cities of body are almost unlimited. The towns and cities of Georgia are unusually alert and each of them is en-gaged in special efforts for its own development. By combining their energy and resources in a movement to chrich and extend that great field of common inter-eats in which they are all equally concerned, they can quicken their own prosperity and upbuild the state as a whole. Indeed, the state as a whole saust grow, if its component counties and towns are to advance. The State Chamber of Commerce embodies and proposal to put into effect the great principle of cooperation. It merits the hearty support of all acod Georgians.

### From Mud to Millions.

From Mud to Millions.

A newspaper correspondent recently made a trip through what is known as "the Black Swamp country" of northern Ohio, a region extending over five counties in the valley of the Maumes river and, in years gone by, so beset with bogs and overflows as to be untilabbe and practically worthers. "He traveled four hundred had thirty-six miles in all," relates the Louisville Courier-Journal, "and he found that the farmers in that district were averaging thirty bushels of oats, twenty-five bushels of rye, two and a halt tons of clover and more than four tons of alfalfa. He saw doesns of fields of wheat that produce thirty-five bushels to the acrea and dozens of corn fields that yield sixty-five bushels to the acrea and dozens of corn fields that yield sixty-five bushels to the acrea and dozens of corn fields that yield sixty-five bushels to the acrea." Indeed, the Black Swamp country, once useless and dangerous to public health, was found to be the most fruitful and profitable soil of the state's entire agricultural area.

once useless and dangerous to public health, was found to be the most fruitful and profitable soil of the state's entire agricultural area.

The correspondent remarks that this is "an object lesson in getting something out of nothing." It might more truly be described, however, as an object lesson in putting thought and enterprise into a latent but fertile opportunity. Swamp lands are in fact a great treasury of potential wealth, a sort of All Baba's cave, stored with all manner of hidden riches, awaiting him who comes with the open sesame of science and purposeful skill.

It was only some two decades ago that this entangled Obio swamp was a serious problem to the state. When its timber had been cut away, the remaining morass was worse than useless; it was a source of malarial disease and a detrigent to the value of all adjacent property. But a movement to drain the swamp was inaugurated. Competent engineers were employed to make preliminary surveys. Then interested communities with the aid of the state undertook the practical work of reclamation. The land was steadily redeemed from its original condition. Durable roads were built. Farms sprang uphere and there, more numerously each season. The land was steadily redeemed from its original condition. Durable roads were built. Farms sprang uphere and there, more numerously each season. The last fertility. Every acre within its boundaries well as fertility. Every acre within its boundaries one in value, yielding substantial profit to the individual owner and an incomparable larger tax revenue to the state. Today the Black Swamp country is one of Obio's richest sources of food supply and prosperity.

round parties of and grained and put under cultivation. From a purely business standpoint, it is evident that the state can ill afford to neglect this important and inviting enterprise. The increase in tax values alone would more than warrant a liberal appropriation for drainage work; and to that increase must be added the incaclusible good that would come to public interests in general and, particularly, to agriculture.

## "You shall know the truth, and the truth shall make you free."

"Her captor—was one
Of those whose passion was done.
A cold, fierce worm of the sea—
What hangman shall wait his host
Of butchers from coast to coast,
New York to the Golden Gate—

Lust-kings with a careful plan—"
CHIEF BEAVERS smashed their plan in Atlanta.
September, a year ago, he made it impossible for them in the Capital to follow that trade which demands the seduction of girls. He has done more: his success has taught that one fearless and honest official can end the reign of "lust-kings" in other cities.

Little Rock has followed his example

Birmingham has notified the world that her houses of shame must

go.

And last week the Mayor of the Capital of Texas, Austin, in directing that the red light district close October 1st, pointed to the act of your CHIEF OF POLICE.

Cities and smaller towns seeing the work that he has done in Atlanta have thrown off the disgraceful yoke.

From Tacoma, Buffalo, San Francisco, Richmond, Nashville, Charleston, Mobile and other cities come pouring inquiries as to the work of your police force and its Chief.

"Lust kings!" are agnest

police force and its Chief.

"Lust-kings" are aghast.

Their occupation of buying, defiling and selling girls and women will become a thing of the past!

They strive to stem the tide.

"OOLD, FIERCE WORMS" willing and anxious to enrich themselves by the sale of the souls of women and girls—these today are trying to poison your minds against your Chief of Police: IN THIS WAY they hope to destroy the discipline and efficiency of your police force. If word continues to go out that an honest Chief of Police having under him a body of honorable men can cope with "lust-kings" and their kind, WHAT WILL THEY DO?

They seek to undermine a man.

But not yet has the day dawned in Georgia—never will that day come in our State, when the criminal element can ruin a man simply because he loves honor more than gold.

Chief Beavers is safe. BUT OUR CITY and State have suffered.

God forbid that more damage be done!

The eyes of the world are upon the meeting of our Police Commissioners tonight—Wednesday.

You are not a fool: you know that neither the Chief, nor any of the men under him oppose or knowingly interfere with innocent love-making in our parks; you are not blind.

And squids cannot emit enough of ink to hide the truth, or obscure THE REAL ISSUES.

THE REAL ISSUES.

They are these—
For the third time charges have been preferred against one man now holding a captain's commission on the force. A second time the charges involve the relations of this man with women. Twice he has been cleared. If innocent, he should be cleared again. But this time he stands accused of improper conduct in one of our city parks where children play.

been cleared. If innocent, he should be cleared again. Dut this time is stands accused of improper conduct in one of our city parks where children play.

The man is married.

Chief Beavers suspended him.

What has this to do with the "lust-kings" and their plans? EVERY-THING. The Chief must have power to prevent the contamination of our children's playgrounds; if a married man, an officer of our force, offends, DUTY DEMANDS the more that the Chief remove him. If the Board should condone such actions upon the part of subordinates, where would be the discipline of our force? Who would be responsible for the just contempt with which men would view the officers of the law?

And the plain-clothes men!

THEY WERE a part of the force before the Chief gave Protected Vice its death blow: the "lust-kings" and their friends forgot the existence of these men and THE INTEGRITY of the police force when they sneered:

"He can scatter evil. He cannot control it. He will only make a mess."

mess."

But these men have handled the situation: they have controlled it.
Hence the effort to discredit them and take them away from the
force—the attempt to cut off THIS EFFECTUAL ARM that has put the
fear of God into the hearts of the pimps and panderers of the underworld
and those whom these unspeakable creatures serve!

That FEAR will continue.

PERSONAL LIBERTY? God offers it: He has given it to you. Fear
in the hearts of the white slaver and the 'lust-kings' is not inconsistent
with your freedom.

in the hearts of the white slaver and the "lüst-kings" is not inconsistent with your freedom.

On the contrary the liberty which you, your sister, your daughter and family enjoy is wholly dependent upon the fear of the law impressed upon those to whom honor shd a woman's name are meaningtess terms.

No man's personal liberty requires the sacrifice of the daughters and sisters of other men.

You will not be deceived.

"You shall know the truth."

The Police Board of the City of Atlanta will not play into the hands of the criminal element which infests every city in our land.

"The truth shall make YOU FREE."

## A Fall Exhibit of Most Desirable Models From Best Corset Makers

### Explaining Success of Allen's Corset Dept.

Our shelves are open to every worthy corset coming from manufacturers of reputation.

We have no obligations, therefore no handicap in buying the very choicest corsets, and in offering our patrons the very broadest opportunity for selecting the *suitable* corset from our

The corset business is advancing every day. Today it is an art. The right sort, a necessity.

The proper fitting of the corset, the individual choosing according to the figure, is even more important than your fashionable gowns. It is emphatically essential that the corset has the first fitting. Otherwise your good gown may fall short of its intended good lines.

If your figure is improved by the *Mme. Marietle*, that is the corset we fit you in, carrying every model of fashionable lines in stock; if the softer lines of the *Regaliste* suit you best, this is your corset. And so it is with the lace front *La Camille*, the *C. B.* and the *B. & J.* 

Certainly such splendid variety as these well known makes would give a wonderful advantage in the selection of the correct corset model for your figure.

### La Camille

### The Front-Lace Corset With the "Ventilo" Back

The La Camille is the lace front corset we have adopted after considering various good ones. In doing so we reckoned with the best features offered. One of greatest importance is the "Ventilo" back, which is an elimination of the pressure on the delicate nerves of the spine, permits of a necessary circulation of air and at the same time furnishes a rigid support to the back.

We give special and professional fittings to all corsets sold.
